

*Quality Assurance & Quality Control Services:
Various Clients*

Project:	Quality Assurance and Quality Control Services
Clients:	HJAIA for QA & Various Clients for QC
Location:	Metropolitan Atlanta
Completion	Ongoing

Objective: To provide quality assurance (QA) services on behalf of owners or quality control (QC) services requested by contractors for a variety of construction projects in metropolitan Atlanta, including major activity at Hartsfield Jackson Atlanta International Airport.

MME's responsibilities typically include scheduling, monitoring, inspection, testing and approving of various QA/QC aspects of the projects.

Among the tests administered include:

- Soil Density Test
- Concrete Strength Test (Compressive & Flexural Tests)
- Atterburg Limit Test
- Reinforcing Steel Inspections
- Prestressed Concrete Inspections
- Roofing Inspections

A list of representative projects where MME performed quality assurance and quality control services is attached.
